

## Comprehensive asset management at your fingertips!

Did you know that as a J.A. King customer you receive complimentary access to our award-winning asset management system, GageSuite?

Gone are the days of searching through a file cabinet to produce a certificate for an auditor - they are right at your fingertips!

GageSuite is cloud-based and provides 24/7 access to your equipment information, including:

- Complete calibration and repair history for each piece of equipment
- Download and print calibration certificates
- Color-coding by calibration due date
- Location data for each piece reduces lost gages

### Watch a GageSuite Demo!

Are you looking to purchase calibration tracking Software? Fully functional GageSuite software is now available to our customers who perform in-house calibration giving you the ability to track every calibration and your equipment history in one place.
